

NATURE & WILDLIFE

Mindfulness to experience nature

Room for nature

The natural history

Green space

green zones, 'pockets' of trees and greenery to allow urban wildlife to thrive

Return of oysters and seagrass

Natural habitats of seabirds & other sea creatures like crab, etc.

Coastline plants

Encouraging different species of wildlife to flourish

Love the oysters & seagrass rehab project

Rewilding native species

Love the fish and plant life / animals that are in the tidal zones

Love the diversity and being able to see creatures like silks, jelly fish, even star fish or other deep sea creatures washed down the beach after winter/early spring storms

We must live together with nature

Wild foxes

Sea (anemone?)

Sea birds

Wildlife

Pollinators

Deer

Birds but not seagulls, e.g. swans

I walk a lot and find it calming and relaxing

Seaside - driftwood, shells, waves

Trees

Swans in the pond

Fish, ducks, magpies, robins

Baby seals, seals on the pontoons

connection to the Flora and fauna

Sealife

Something celebrating nature

A large marine creature?

Represent wildlife

Something inspired by nature

Animals -> going out to see them

Local nature

natural (habitation?)

Unheard voices - Of landscape

Elements representing local sea life

Knots, seals, foxes, humpbacks, crows

Wildlife

nature, animal with the (?), seaweed with tide

(Clay?) crustaceans

Sea (anemone?)

Some organic and nature-related elements, shapes and forms

'knots' endangered birds overwintered on the harbour...

Wildlife

HISTORY

The heritage, history & industrial part of North Edinburgh

The history

Something that reflects local history

To reflect the past

Esparto grass (tortoise) see Granton Hub postcard

Something inspired by history

Granton through the years

Local history

As areas are built up it is important to take the opportunity to mark what was there before reflecting history of Granton

Industries

Salvensens

The train-boat in the Victoria era

History of the area e.g. railway, harbour, fishing, transport

interpretation of the long history of the area- from ancient geology of the waterfront to the industrial past! (Wire works/ gas storage?/ sandstone quarry /Madelvic motor carriage company)

representing the history of the area

THE COAST & OUR CONNECTION TO THE WATER

Bring back natural order of coastline

Protect & restore natural beauty of the coastline

Raise awareness of the importance of preserving and improving the coast

The way the city sits on the water is beautiful

Shoreline

aspects of the River Forth & surrounding shoreline

using locally sourced materials like sea shells, sea glass or even brick from the local beach

Swimming

Water

storytelling elements linked to the coastal communities of Scotland

COMMUNITY & PEOPLE

Projects that involve local community & schools

Free family outings

INCLUSION of local people

Community

Friends, activities

the community + giving people something to love

Community input

Unheard voices - community

The community

Connection between people

People

ACCESS & ACCESSIBILITY

Accessible for all

Access to city, green spaces & the shore

Access to harbour

Access to the centre, work, neighbours
transport links

CONSERVATION, REDUCING POLLUTION

Clean beaches/seas

LEZ emission zone

Clean environment

Stopping the pollution of the water

Keeping swimming waters clean!!

OTHER COMMON THREADS

Walks

Walking in the park

Space to wonder

Parks and old railway walk/cycle paths

Local materials & ideas

Made locally
